## Latitude and Longitude Practice

### Part 1

Use the map below to identify the name of the location of the coordinates. Use a colored pencil or marker on the map to show the locations you found.

0°N 58°W \_\_\_\_\_

70°N 32°W \_\_\_\_\_

25°S 143°E \_\_\_\_\_

36°S 125°W \_\_\_\_\_

82°N 152°E \_\_\_\_\_

70°N 32°W \_\_\_\_\_

42°N 80°W \_\_\_\_\_

28°S 76°E \_\_\_\_\_

### Part 2

Define the following terms and label them on the map above.

**Latitude** (label in yellow): \_\_\_\_\_

**Longitude** (label in yellow): \_\_\_\_\_

**Equator** (label in red): \_\_\_\_\_

**Prime Meridian** (label in red): \_\_\_\_\_

**International Date Line** (label in red): \_\_\_\_\_

**Part 3**

Use your textbook or atlas to find the **absolute location**, *the exact location of something*, of each of these places.

- 1. Bogota, Columbia \_\_\_\_\_
- 2. Astana, Kazakhstan \_\_\_\_\_
- 3. Lake Victoria (Africa) \_\_\_\_\_
- 4. English Channel \_\_\_\_\_
- 5. Himalayas \_\_\_\_\_
- 6. Bering Sea \_\_\_\_\_
- 7. Hawaii, USA \_\_\_\_\_
- 8. North pole \_\_\_\_\_
- 9. Greenwich, England \_\_\_\_\_
- 10. Kabul, Afghanistan \_\_\_\_\_

**Part 4**

Complete the chart by choosing an additional four locations on the globe and identify its absolute location.

Name of location	Absolute location (coordinates)
Machu Picchu	12°S 72°W
